& MORE

⚠ The Sidekick Doublewide Decks can only be installed on GSD Gen 2 bikes.

Weight Limits

⚠ Do not exceed 50 kg (110 lb) per deck

Safety Notes

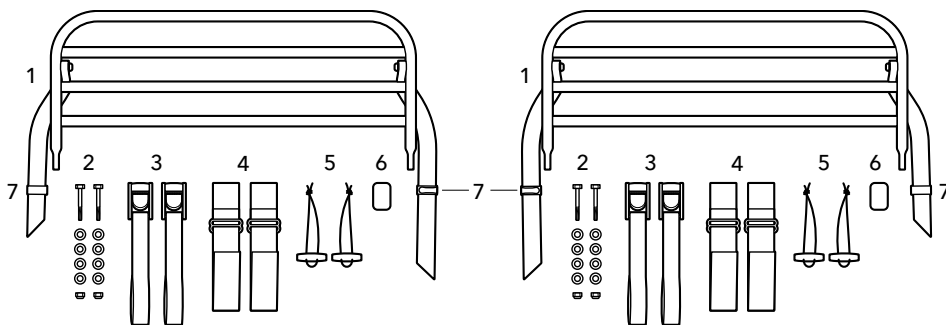

⚠ When loading the Sidekick Doublewide Decks, check that the cargo & its weight is distributed evenly across the entire surface of the decks and between the Cargo Straps. Cargo that is loaded on the decks should be placed in the middle and not towards the outer edge or the front or back of the deck.

⚠ Inspect Cargo Straps periodically for signs of wear. Replace if fraying or damage is noticed.

⚠ Please check that the deck is level and that all cargo is secured before riding. Take care that all straps are tied down and any loose item is secured.

What's Included

1. Doublewide Deck x 2
2. Bolt Set x 4
3. Cargo Strap x 4
4. Passenger Strap x 4
5. Guide Cord x 4
6. Sticker x 2
7. Clip

Installation

(Repeat all steps on each side of the bike)

⚠ Installation of Lockstand Extensions is required to ensure the safe use of the Sidekick Doublewide Decks.

Sidekick Doublewide Decks™

3

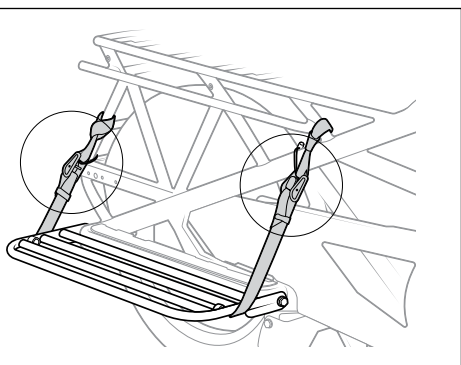

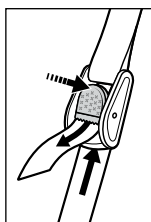

* If clearance exists, use extra washer(s)

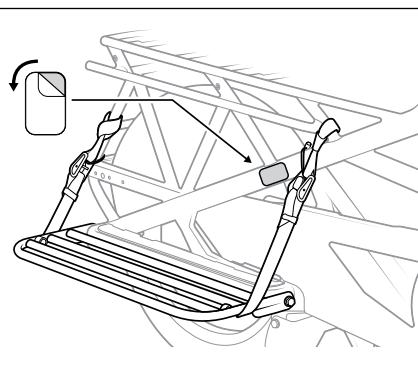

- Semi-tighten so the Doublewide Deck can still be rotated to folded position.

⚠ Add anti-seize lubricant to the tip of the bolts before securing the nuts. If anti-seize lubricant is not available, apply any standard lubricant to reduce friction and prevent thread galling.

Carrying Cargo

- ⚠ Properly secure cargo with a strap. Heavy-duty straps with a cam buckle closure are recommended.

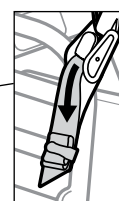

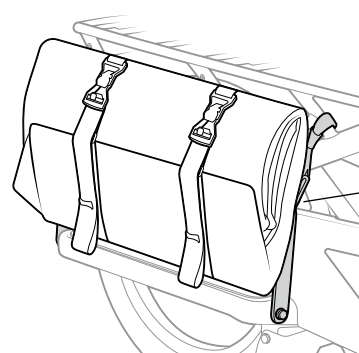

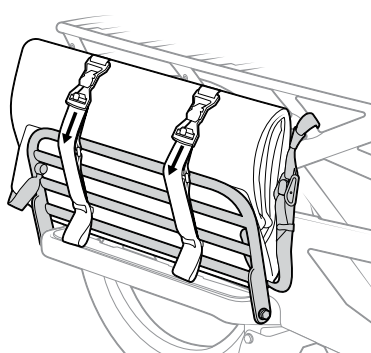

Folding

- ⚠ Tighten the front Cargo Strap to secure folded position.

- ⚠ Use Clips to secure the Strap ends.

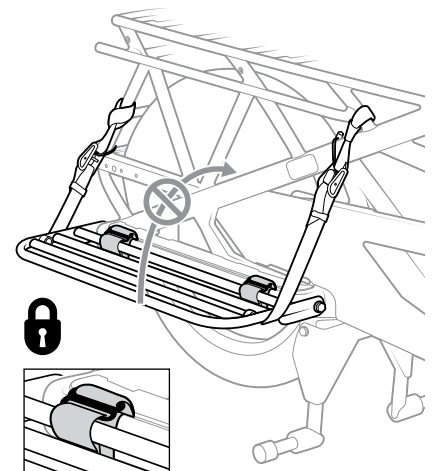

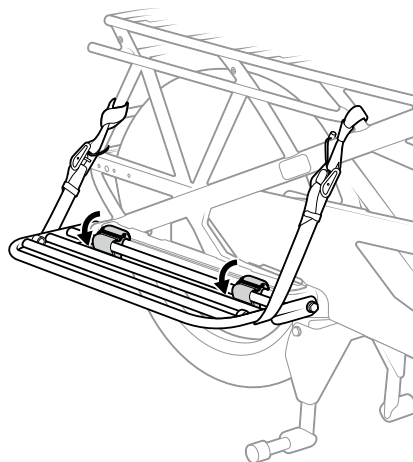

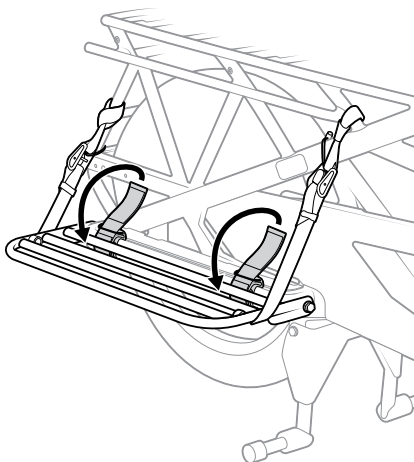

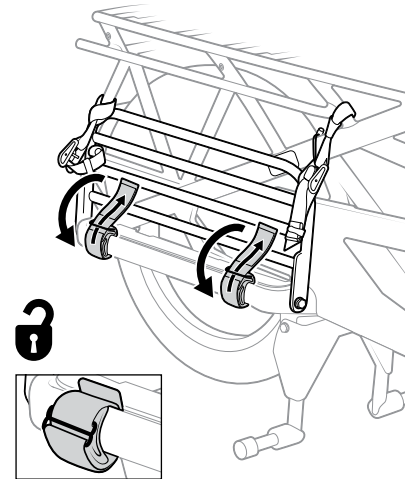

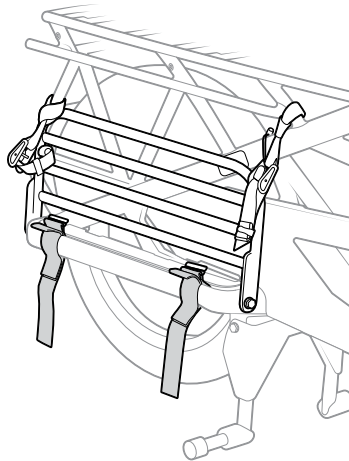

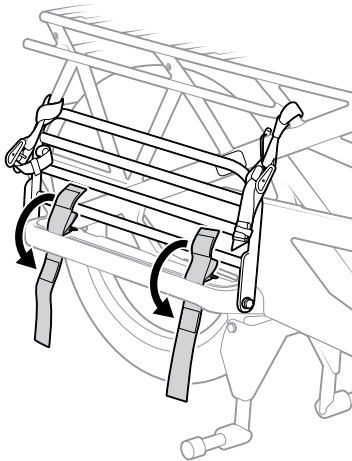

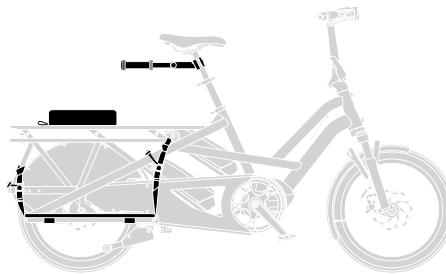

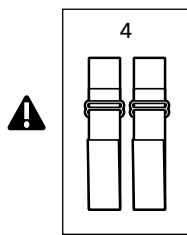

Using with Cargo Hold 52 Panniers

Sidekick Doublewide Decks™

Carrying Rear Passengers

⚠ Make sure both Doublewide Decks are locked with the Passenger Straps before riding with a passenger.

Carrying Rear Passengers

Before carrying passengers, it's important to familiarize yourself with your bike's capabilities by referring to its user manual and/or QuickStart Guide.

Safety Notes

Check Local Regulations

⚠ It may be illegal to carry passengers on a bike in your area even if it has been designed or configured to do so. Check your local regulations before carrying passengers.

Know Your Riding Condition

Both front and rear tires must always remain in contact with the ground when riding with passengers. No passenger is allowed when riding on unimproved or unmaintained trails with a natural surface, even if your bike is designed to handle such terrain.

Follow Installation Procedures

Check to ensure accessories have been correctly installed and securely fastened before riding.

Follow Your Bike's Max Gross Vehicle Weight Limits

⚠ Check your bike's user manual and/or QuickStart Guide for information about maximum gross vehicle weight* and/or cargo weight** limits. Please do not exceed these weight limits.

* Maximum gross vehicle weight is the total weight of the bike, riders (the cyclist and any passengers), accessories, and cargo.

** Cargo weight is the total weight of passengers, accessories, and cargo.

Riding with Passengers

Wear a Helmet

Rider and rear passenger(s) are strongly advised to wear an approved helmet.

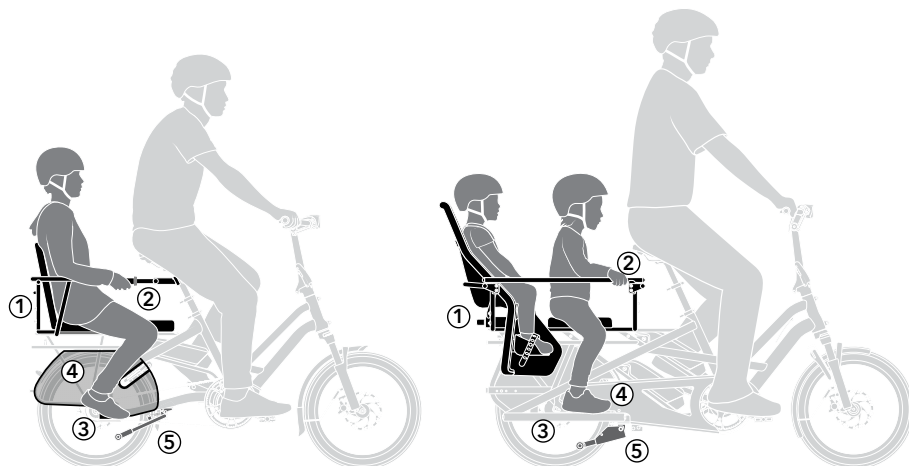

Do NOT Leave Children Unattended

Do not allow your children to climb onto the bike nor leave your children unattended on the bike, even if it is on the kickstand. Wiggling children can upset the balance of the bike and a fall may result in serious injuries.

Use Proper Equipment

⚠ The bike must have the following accessories installed in order to safely transport rear passenger(s):

1. **Seating.** Purpose-built rear seating, chosen according to the passenger's needs
2. **Handhold.** Something for the passenger to hold on to, other than the bike itself
3. **Foot support.** Fixed platforms or dedicated foot rests on both sides of the bike
4. **Foot and leg protection.** Something to prevent feet and legs from getting caught in the spinning wheel
5. **Double kickstand (optional).** Dual-leg kickstand with a wide stance that keeps a bike standing firmly on the ground, providing extra stability when loading and unloading a young passenger

The illustrations above show a mix of suggested gear to safely carry passengers. Your combination of passenger accessories may differ depending on your needs. To learn more about how to safely carry passengers on your bike, visit ternbicycles.com/support.

Use Accessories Properly

If you're carrying young children on your bike, please follow the instructions provided by your child seat manufacturer for compatibility, proper installation, and recommended use to ensure your child's safety and comfort.

Our seating accessories are strictly for sitting. Using them for other purposes such as lifting the bike may cause damage to the frame and/or said accessories.

Our rear handhold accessories are intended for passengers to hold onto. Select rear rack-mounted handholds may be used to briefly lift the bike over small obstacles, but in general please refrain from adding substantial weight on the top of or using the rear passenger handholds to lift the bike, as this will cause undue stress which may damage the bike.

Our foot support accessories are strictly for passenger use when SEATED. Standing on them is unsafe and may permanently damage the frame.
