& MORE

⚠ We highly recommend watching the Sun Shield Mini installation video on our Support site before you begin.

What's Included

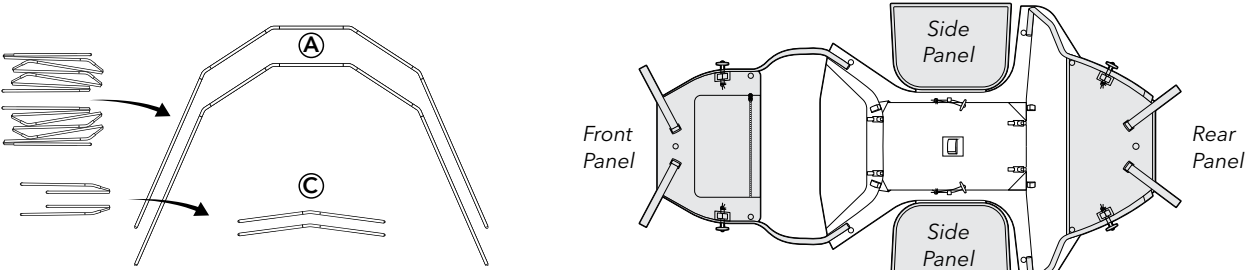

- Sun Shield Mini x 1
- Ⓐ Long Pole x 2
- Ⓑ Tail Wing Pole x 1
- Ⓒ Roof Pole x 2

How to Assemble

Preparation

- Unfold Long Poles (A) and Roof Poles (C), pushing each section together to form single poles.
- Unfold and lay out Sun Shield Mini, with the underside facing up.
- Smoothen and straighten Front & Rear Panel sleeves.
- Ensure Side Panels are unzipped.

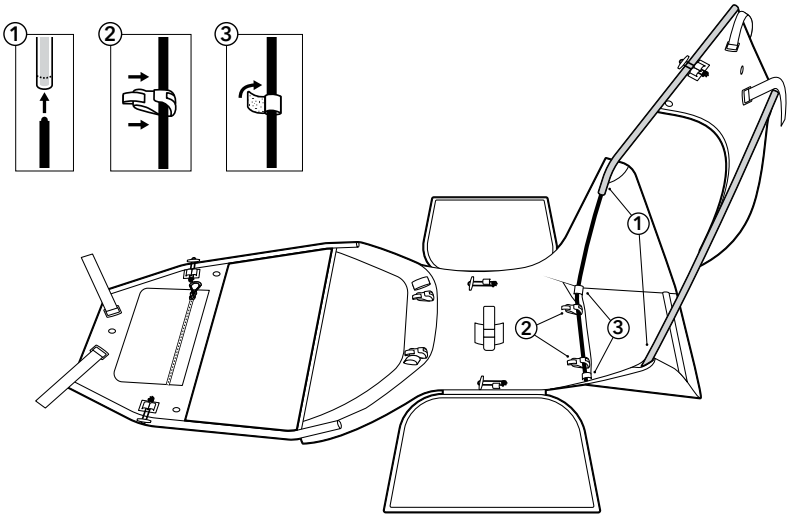

Assembly

⚠ Assemble Sun Shield Mini in a free area, away from other people and pets.

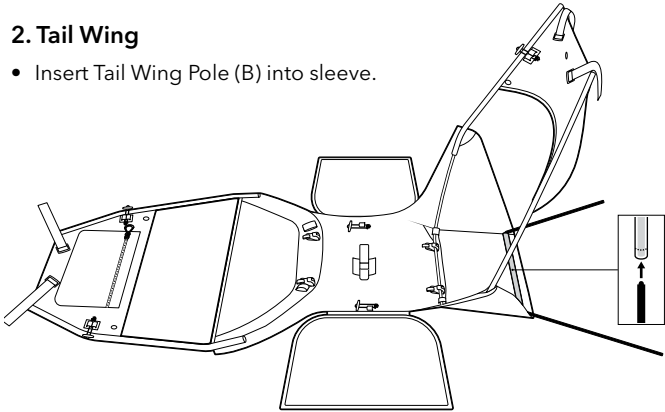

1. Rear Panel

- Insert Long Pole (A) into rear panel sleeves (openings marked by red stitching). Make sure Pole reaches the end of both sleeves.
Tip: After fully inserting one side of the Pole, prop it against a wall and insert the other side.
- Clip Pole into plastic hooks and secure with self-fastening straps.

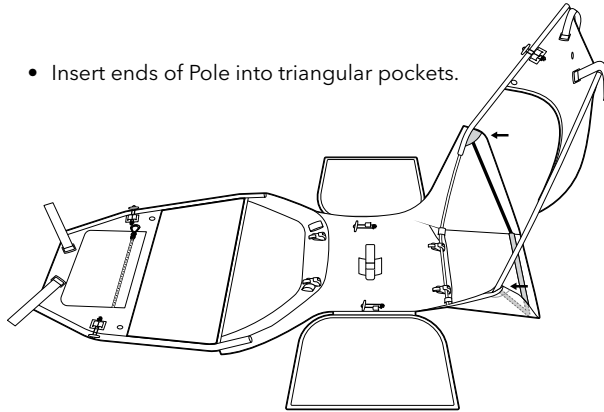

2. Tail Wing

- Insert Tail Wing Pole (B) into sleeve.

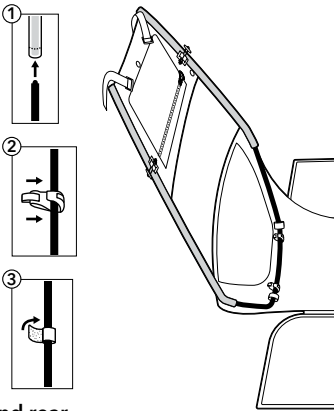

- Insert ends of Pole into triangular pockets.

3. Front Panel

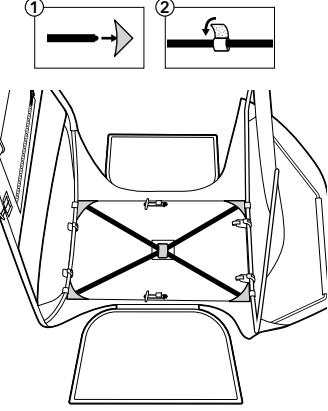

- Insert Long Pole (A) into front panel sleeves (openings marked by red stitching). Make sure Pole reaches the end of both sleeves.
Tip: After fully inserting one side of the Pole, prop it against a wall and insert the other side.
- Clip Pole into plastic hooks and secure with self-fastening straps.

⚠ Check and ensure both front and rear Long Poles are secured correctly.

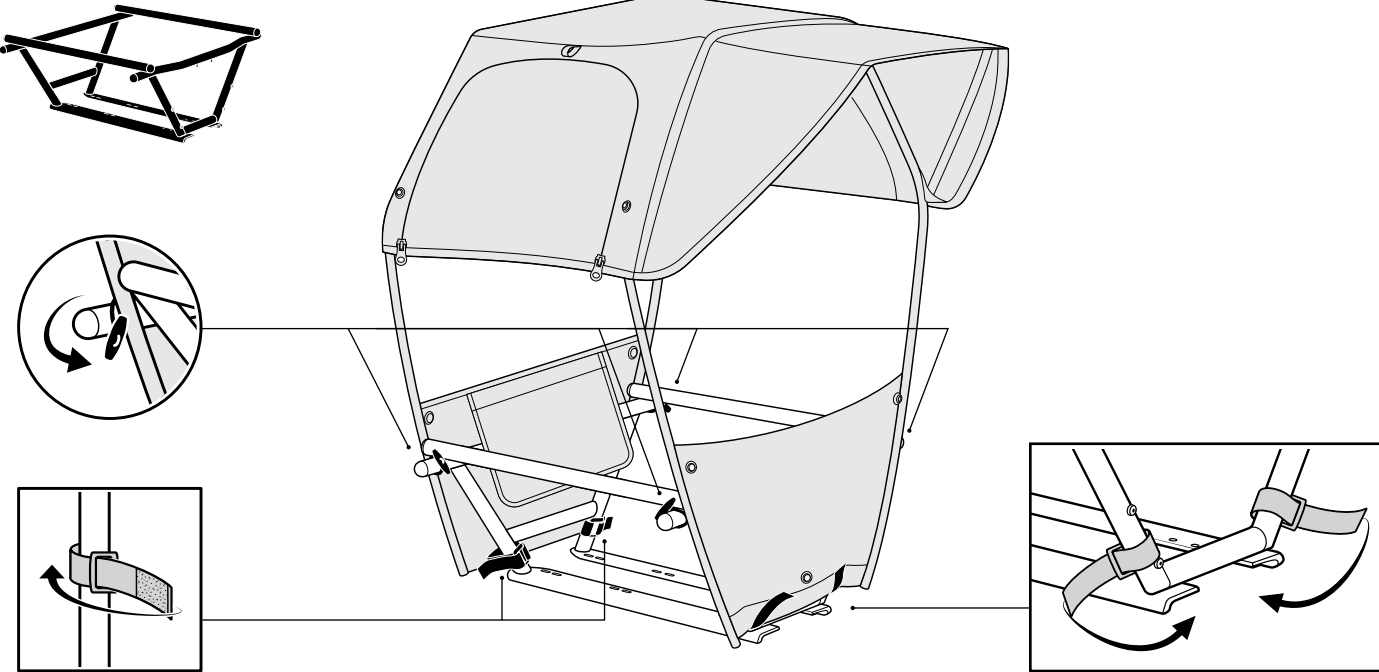

4. Roof

- Install Roof Poles (C) diagonally, arc-side up. First insert one end of Pole into larger triangular pocket, then insert other end into smaller triangular pocket. Repeat with other Pole.
- Push on arc of intersecting Poles to set Poles.
- Use self-fastening straps to secure Roof Poles in place.

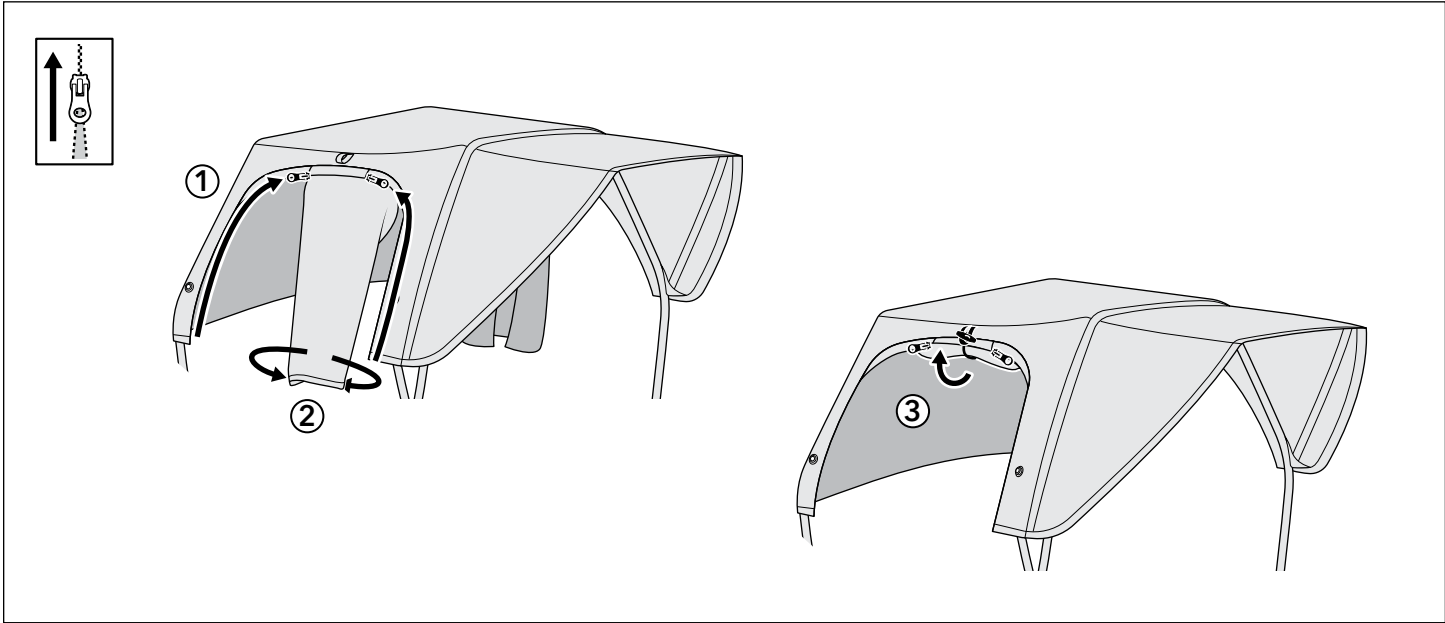

How to Install

- ⚠ The Sun Shield Mini requires a Clubhouse® Mini (sold separately) for installation. Other Clubhouse versions are NOT compatible.
- Place Sun Shield Mini over Clubhouse Mini.
- Attach the four (4) elastic cords to Clubhouse Mini knobs.
- Use self-fastening straps at the bottom of Front & Rear Panels to secure to Clubhouse Mini.

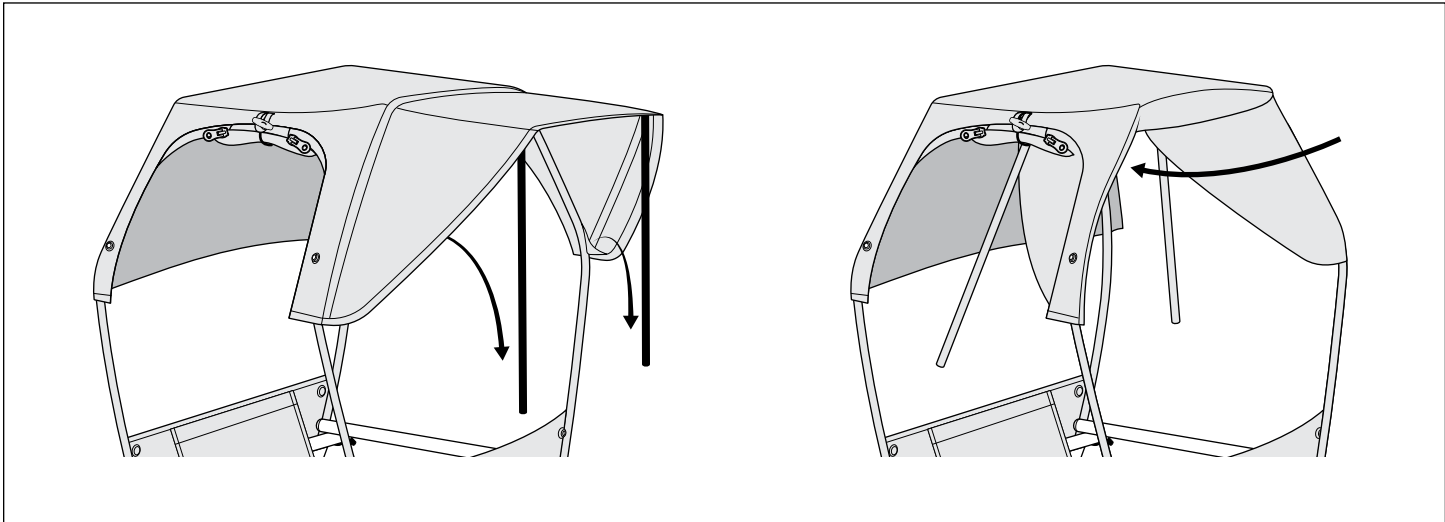

How to Stow Side Panels

How to Fold Tail Wing

Folding the Tail Wing allows your bike to be vertically parked.

How to Clean

Wipe using dampened cloth with mild soap. Allow Sun Shield Mini to fully dry before storing.

- ⚠ Do not use bleach or other harsh chemicals.
- ⚠ Do not machine wash or machine dry.

LIMITED PRODUCT WARRANTY INFORMATION: This Product comes with a ONE (1) YEAR Limited Warranty from the date of retail purchase by the original end-user. If a material or workmanship defect arises and a valid claim is received within the Warranty Period, this Product will be replaced. This warranty does not cover normal wear and tear, routine maintenance, or damages caused by misuse or improper care. For the full terms of this warranty, see ternbicycles.com/warranty.

ternbicycles.com

Before carrying passengers, it's important to familiarize yourself with your bike's capabilities by referring to its User Manual or QuickStart Guide.

WARNINGS

- Your bike may behave differently with passengers onboard, particularly in terms of balance, steering, and braking. Practice handling the bike in a safe area before riding with passengers on public roads.
- Do not leave children unattended on the bike, even if it is on the kickstand. Wiggling children can upset the balance of the bike and a fall may result in serious injuries.
- If your bike has been parked outdoors, check all passenger contact surfaces for heat to prevent burns.

Safety Notes

⚠ Follow the Law

Check your local regulations before carrying passengers. Some jurisdictions don't allow passengers, others require special accessories, and some limit the number or age of passengers.

⚠ Stay Within the Weight Limits

Always follow the weight limits listed in your bike and accessory manuals, including the bike's maximum gross vehicle weight (MGVW). **The combined weight of the bike (with battery), accessories, rider, passengers, and cargo must not exceed the MGVW for safe riding.**

⚠ Know Your Riding Condition

Keep both tires on the ground when riding with passengers. Do not carry passengers on unimproved or unmaintained natural-surface trails.

⚠ Keep Your Bike Steady for Passengers

Before loading or unloading passengers, make sure the bike is stable and parked on a firm, level surface. If passengers mount or dismount on their own, hold the bike steady to prevent tipping.

⚠ Ensure Your Bike Setup is Safe & Secure

- Be fore each trip, check that accessories have been correctly installed and secured, and ensure there are no loose items on the bike or on your passenger(s) that may get caught in moving bike parts. Keep sharp objects away from children, and suitably cover any coil springs (e.g. under the saddle) to prevent trapping of fingers.
- Regularly check your bike setup for worn or damaged parts. Always use genuine replacements and replace any damaged parts immediately, either by a qualified mechanic or following the manufacturer's instructions.

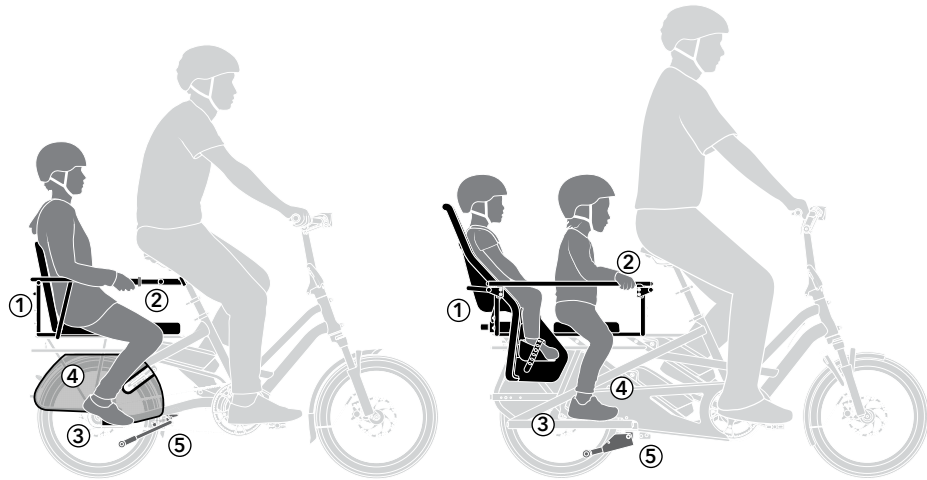

⚠ Use Helmet & Proper Clothing

Always follow local helmet laws. For safety, riders and passengers are strongly advised to wear an approved helmet. In cold or wet weather, dress young passengers warmly and protect them from the elements.

Use a Suitable Passenger Setup

⚠ Your bike must have proper accessories for the following purposes to safely carry rear passenger(s):

1. **Seating***. Purpose-built rear seating, chosen according to the passenger's needs
2. **Handhold**. Something for the passenger to hold on to, other than the bike itself
3. **Foot support**. Fixed platforms or dedicated foot rests on both sides of the bike
4. **Foot and leg protection**. Something to prevent feet and legs from getting caught in the spinning wheel
5. **Double kickstand**. Dual-leg stand with a wide stance for extra stability when loading or unloading passengers

* Only use seating suitable for your passenger's age and size, and follow the seat manufacturer's instructions for compatibility, installation, use, and maintenance. Child passengers should be able to sit unaided for the duration of the ride. Always secure them with the provided restraint system, and regularly check that their height and weight remain within the manufacturer's limits.

Note: The illustrations show examples of gear for safely carrying rear passengers. Your setup may vary. Tern's seating, handhold, and foot support accessories are not intended for lifting the bike or bearing heavy loads, unless specified, as this may damage the bike or accessories.
